

FAMILY INFORMATION

WORK-BASED LEARNING ALLIANCE

WELCOME!

Dear Parent, Family Member, or Guardian,

Welcome to the Work-Based Learning Alliance! We are excited to work with your student.

Your student has been identified as a candidate to participate in one of our paid work-based learning experiences. They may participate in a virtual internship program or industry project experience. The accompanying information should provide more details on the options available. To get started, your student will need to complete our Student Registration Form with your guidance and support as well as obtain a work permit from the Superintendent of Schools.

In order to successfully complete one of our programs and receive all stipend payments, your student will need to attend all required meetings, complete all required work, and fully participate in a final presentation.

Should you have any questions about our program requirements or the registration process, please reach out to me at prue@wblalliance.org.

We're looking forward to working with your student!

Sincerely,

Prue Clifford

Executive Director

Work-Based Learning Alliance
