FISCAL YEAR '25

LEVEL SERVICE BUDGET PRESENTATION

FY25 PRIORITIES

The NPS budget reflects the vision and strategic plan which address the needs of Newburyport students and schools. The strategic priorities provide direction to administrators and guide staff in developing budget recommendations. The budget addresses four key areas:

Teaching and Learning: Support continuous refinement of curriculum, instruction, and assessment practices.

People (Personnel): Meet the needs of all learners with highly qualified staff, teachers and administrators.

Operations: Ensure the resources, technology infrastructure, and school facilities support learning and meet district goals.

BUDGET ASSUMPTIONS

The budget reflects the assumption that the school district will meet all federal, state, and local mandated programs and requirements. Thus, the budget includes sufficient resources and funding to meet contractual obligations, to implement mandated programs, and to ensure the high school meets accreditation standards.

Contractual Obligations

- ❖ Newburyport Teachers Association

- ❖ Operations and maintenance costs for the new year (e.g., utilities, building maintenance).

Level Service Budget Assumptions

1. City Allocation is funded through both Chapter 70 State Funding (FY25 \$5,725,695 increase of \$65,000 from FY24 \$5,660,145) and city funding
2. Medicaid Reimbursement (reimbursement goes directly to the City): no change from FY24 level \$200,000
3. Preschool Revolving: no change from FY24 level \$200,000
4. Other Tuition (tuition collected through special education and exchange programs): increase of \$127,500

6. Revolving Accounts
 - (a) Athletics: increase spending by \$36,935 from FY24

 - (c) Transportation: decrease spending from FY24 due to lower ridership and a change in the family fees (reduction in the number of miles from 2.0 to 1.5 miles)
7. Professional Development Grant (Swasey Foundation): no change in this generous grant to support teacher professional development \$140,000
8. Entitlement Grants
 - (a) Reduce Title I by \$60,000 due to change in demographics
 - (b) Increase IDEA Special Education by \$74,916
 - (c) Other (Title II, IV, etc): no change
9. Circuit Breaker Reimbursement: increase of \$290,682 (total \$3,000,000)

BACKGROUND: CHAPTER 70 PROGRAM FUNDING

“The Chapter 70 program is the major program of state aid to public elementary and secondary schools. In addition to providing state aid to support school operations, it establishes minimum spending requirements for each school district and minimum requirements for each municipality’s share of school costs.” [DESE School Finance](#)

FY25 Funding

The funding Newburyport (or any city/town) receives is based on a formula that identifies:

1. **A foundation budget:** an adequate funding level for our enrollment (# students) and population (demographics: income, special education, EL) (FY25 expected: \$27,495,318)
2. **Target Local Contribution:** using the city’s tax base and relative wealth calculations, how much Newburyport is expected to contribute (FY25 expected: \$22,663,663)

These amounts are then used to calculate **foundation aid** (difference between foundation budget and local contribution). (FY25 expected: \$4,831,655)

The state also sets a **minimum per pupil increase** of \$30/pupil for FY25. (FY25 expected: \$65,550)

Our **overall aid**, is the combination of the foundation aid with the minimum per pupil increase. (\$5,725,695).

The FY25 expected aid is \$5,725,695 an increase of \$65,5500 from FY24. In FY24 Newburyport received a \$978,712 increase above the FY23 aid. See chart below for trends.

Chapter 30B	UNIFORM PROCUREMENT ACT
Section 12	TERM OF CONTRACT; INFORMATION TO BE INCLUDED IN SOLICITATION; CANCELLATION OF CONTRACT

Section 12. (a) Unless otherwise provided by law and subject to paragraph (b), a governmental body may enter into a contract for any period of time which serves the best interests of the governmental body; provided, however, that the procurement officer shall include in the solicitation the term of the contract and conditions of renewal, extension or purchase, if any. The procurement officer shall not enter into a contract unless funds are available for the first fiscal year at the time of contracting. Payment and performance obligations for succeeding fiscal years shall depend on the availability and appropriation of funds.

(b) Unless authorized by majority vote, a procurement officer shall not award a contract for a term exceeding three years, including any renewal, extension, or option. Such authorization may apply to a single contract or to any number or types of contracts, and may specify a uniform limit or different limits on the duration of any such contracts.

(c) The invitation for bids, request for proposals, or other solicitation of any contract for a term exceeding one year, including a renewal, extension or option, shall state, in addition to the other information required by this chapter:

(1) the amount of supplies or services required for the proposed contract period, and whether such amount is the actual amount required or an estimate;

(2) that the bidder or offeror shall give a unit price for each supply or service, and that the unit price shall remain the same throughout the contract, except to the extent that the solicitation and resulting contract provides for price adjustments;

(3) that the procurement officer shall cancel the contract if funds are not appropriated or otherwise made available to support continuation of performance in any fiscal year succeeding the first year;

(4) whether the bidder or offeror shall submit prices for:

(i) the first fiscal year only;

(ii) the entire time of performance only; or

(iii) both the first fiscal year and the entire time of performance; and

(5) how the award will be determined, including, if the contractor submits prices for the first fiscal year and the entire time of performance, how the prices will be compared.

When a contract is to contain an option for renewal, extension, or purchase, the solicitation shall include notice of the provision. The governmental body shall retain sole discretion in exercising the option, and no exercise of an option shall be subject to agreement or acceptance by the contractor.

(d) When funds are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year, the procurement officer shall cancel the contract.

(e) The governmental body shall not exercise an option for renewal, extension or purchase unless the procurement officer, after reasonable investigation of costs and benefits, has determined in writing that the exercise of the option is more advantageous than alternate means of procuring comparable supplies or services.

(f) Notwithstanding the provisions of paragraphs (a), (b), clause (3) of paragraph (c) and paragraph (d) and further notwithstanding any contrary provision of any law or the provisions of any charter, a city or town may, in a contract for the disposal of its garbage, refuse, and offal or treatment or disposal of sewage, septage or sludge, agree that said city or town shall not be exempt from liability on such contract; provided, however, that such disposal shall be in a sanitary manner approved by the department of environmental protection; provided further, that the contract, including any renewal, extension, or option, shall be for a period not exceeding twenty years; and provided, further, that such contract has been authorized by majority vote.

School Security Upgrades

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	New
Priority:	Enhancement
Project Cost:	\$637,987
Estimated Useful Life:	10 Years

Description and Justification:

The schools are undertaking a comprehensive district-wide security system upgrade that will include all security related systems at all three buildings. This will put all of these systems on the Verkada platform so that they will all work seamlessly with one another. To date all security cameras and the video intercom system have been updated at the high school. Additionally, about 20% of the cameras in the Nock-Molin building have been upgraded. The remainder of the project will replace the rest of the cameras at Nock-Molin and all at Bresnahan. All video intercom, access control, visitor management and burglar alarm systems will also be upgraded. Work is expected to be completed by May 2024. All equipment will have a 10-year warranty, 10 year licensing and automatic software and firmware upgrades. This project is being funded by a 7-year lease with a downpayment of \$153,597 (grant funds) and annual payments of \$96,878 (operating budget).

NHS Telephone System Replacement

Department:	Schools
Category:	Infrastructure
Request Type (New/Prior Year):	New
Priority:	Urgent/Legally Required
Project Cost:	\$100,000
Estimated Useful Life:	20 Years

Description and Justification:

The high school phone system is a late 90s era analog phone system purchased in 2000 for use in the renovated high school. The system is almost entirely original, except for the voicemail portion, which was upgraded in 2010. Due to the analog nature of this system it is not possible or practical to do a partial upgrade of this system. A replacement entails new wiring, networking, VoIP phones, and a system to operate them. It is becoming increasingly difficult to find spare parts for this system, and in addition, most phone providers are starting to disable analog phone service entirely, as of August 2022 the FCC no longer requires providers to maintain analog phone service as an option, if the system is not replaced soon it may become impossible to operate it at all. Lastly, the system is antiquated enough that it is not possible to bring it into e911 compliance, (Ray Baums act and Kari's Law). These laws state that all phones must report a distinct dispatchable location more accurately than a simple address (floor, room number etc), as well as have the capability for a 911 operator to direct ring back the phone of origination of the 911 call. It is not possible for the 23-year-old system at NHS to meet these requirements.

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	Prior Year
Priority:	Maintain Service
Project Cost:	\$3,920,172
Estimated Useful Life:	25 Years

Description and Justification:

The roof on Building A at the high school is now over 28 years old. Leaks have been experienced in several places this past winter and a roofing contractor has been called in a number of times to make repairs. A Statement of Interest is being submitted to the MSBA for assistance with a roofing project. The timeline for a project with them puts the construction in the summer of 2026 at the earliest, so the estimated project costs are projected out two years. Construction costs are calculated at \$55/sq. ft. and OPM and Engineering fees are calculated at 15% of construction costs. The Building B roof does not meet the 25 year old threshold for MSBA projects, so it is not included in the current SOI. Notification of invitation into the MSBA program is expected in October 2024. If Newburyport is not invited into the program this year serious consideration should be given to moving forward with the project without the MSBA due to the age and condition of the roof. Therefore the recommendation is to allocate the full amount of the OPM & Engineering fees in the FY25 CIP so the city is ready to move forward asap.

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	Prior Year
Priority:	Maintain Service
Project Cost:	\$1,532,369
Estimated Useful Life:	25 Years

Description and Justification:

The gym, auditorium and entrance canopy roofs are all over 28 years old and at the end of their expected life. Leaks have occurred in these sections over the past several months, most notably on the stage over the sound and lighting equipment. A Statement of Interest is being submitted to the MSBA requesting inclusion in their Accelerated Repair Program, which potentially could result in an approximate 44% cost share by the MSBA. Invitations into the program are expected to be announced in October of 2024 with construction likely occurring in the summer of 2026 or 2027. Given the age and condition of the roofs, serious consideration should be given to proceeding with this project without the MSBA if Newburyport is not invited into the program this year. For that reason it is recommended that all funds for the OPM and engineering firm be allocated as part of the FY25 CIP so the city can immediately move forward with procuring those professional services if an invitation into the ARP is not received.

Project Cost:	\$50,000
Estimated Useful Life:	20 Years

Description and Justification:

The Main Distribution Frame closet at Bresnahan is full of technology equipment and consistently runs at a temperature around or exceeding 80 degrees which is in excess of recommendations and puts the equipment in that room at risk. Since the building was constructed 10 years ago several pieces of heat-generating equipment has been added to that closet increasing the heat load and exceeding the design capacity of the current AC unit. Much of the added equipment belongs to the city and is an off-site instance of the city's virtual server infrastructure. Pick-Up Truck with Utility Body

Department:	Schools
Category:	Vehicles/Equipment
Request Type (New/Prior Year):	Prior Year
Priority:	Maintain Service
Project Cost:	\$67,390
Estimated Useful Life:	12 Years

Description and Justification:

Ford F250 4x4 pickup truck with a utility body. This truck would replace an aging 2010 Ford Econoline van. The frame on the current van is rotted to the point that a ground wire had to be run from the battery back to the fuel pump to get it to operate, rather than getting the ground from the frame itself. This vehicle would be used by one of our maintenance technicians who provides maintenance services at all of our schools. It is questionable if the 2010 van will pass inspection when it comes due in September. Cost also includes ladder rack and towing package. While we are not purchasing this with a plow at this time, we want to have a truck that can have a plow added to it in the future as our 2017 plow truck ages. School Department personnel plow the lot and driveways at Bresnahan as well as perform touch ups at the other schools. Quote is based on State Contract VEH110 projected out for model year 2025.

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	Prior Year

Project Cost:	\$150,000

Description and Justification:

In 2015 the exterior stairway leading from the parking lot up to the west terrace at the high school was rebuilt due to severe deterioration. Repairs were made to this same stairway again in 2019, and they are in need of repair again. There is obviously a moisture issue at work here that needs to be figured out so that a long-term fix can be accomplished. This is just one example of many that point to the need for a "House Doctor" contract with an engineering firm to investigate these kind of issues and determine the best course of action for a cost effective and long-lasting repair. At the high school alone there are several masonry/concrete and water infiltration issues that need to be investigated and corrected. This firm would also be helpful evaluating the aging hvac equipment at the high school to prioritize and schedule replacements. Finding the right firm and signing them to a "House Doctor" contract would allow us to utilize them as a consultant across the district for a wide range of problems, current and future, as funds become available.

NHS Integrated Arts Renovation Project-Phase 1

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	Prior Year
Priority:	Maintain Service
Project Cost:	\$336,000
Estimated Useful Life:	20 Years

Description and Justification:

The Integrated Arts project looks to renovate and reinvigorate tired and worn spaces and at the same time create modern and sophisticated learning and collaborating workrooms and labs that can be shared across multiple disciplines including the arts, theater, technology, engineering, science and math. These will be spaces where students can experiment, build, present and prepare themselves to become part of the future workforce. The first phase of this project will create a Multi-media Production Room which will house a state-of-the-art video production lab, an audio production area, green screen space and collaborative work areas. Students in NHS video production courses will pursue beginning to advanced level videography, editing and production. The space will also serve as a centralized location for students and teachers to create and collaborate on multimedia productions for projects in all curriculum areas. As technology becomes more accessible, students are learning to communicate in a range of mediums including podcasts, short videos, and longer-form video. The NEF is hoping to raise \$150,000 to support this project. Other funding sources TBD.

Bresnahan Office Security Enhancement

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	New
Priority:	Enhancement
Project Cost:	\$53,805
Estimated Useful Life:	20 Years

Description and Justification:

This goal of this project is to enhance the physical security at the Bresnahan School by replacing an existing window in the main office with a ballistic rated transaction window, as well as create a physical barrier inside the office to better define where visitors are allowed to go once they are inside the school. The transaction window would limit the number of visitors that would actually have to enter the school by providing a way for staff to interact with them while they are still outside the building.

Nock/Molin-Playground Repaving

Department:	Schools
Category:	Parks, Grounds & Open Space
Request Type (New/Prior Year):	Prior Year
Priority:	Maintain Service
Project Cost:	\$78,500
Estimated Useful Life:	25 Years

Description and Justification:

The west-end playground at the Nock Middle School requires repaving as the existing pavement is in very poor condition with severe cracking, which creates a tripping hazard and allows weeds to grow throughout. The age of the pavement is unknown. The proposed project involves paving from the sidewalk at Toppan's Lane to the building, covering an area of approximately 26,150 square feet. The cost estimate includes a quote from a paving contractor, with an additional 15% for escalation and contingency to mill and overlay the pavement. This entails milling to a depth of 1.5 inches and installing a 1.5-inch topcoat.

Bresnahan Playground Surface Replacement

Department:	Schools
Category:	Facilities Renovation/Repair
Request Type (New/Prior Year):	Prior Year
Priority:	Maintain Service
Project Cost:	\$232,599
Estimated Useful Life:	20 Years

Description and Justification:

Replacement of poured-in-place rubber surfacing in the playgrounds at the Bresnahan School. These surfaces are now coming up on 10 years in age and are cracking and pulling apart in places. The surface of the larger playground is in worse shape than the smaller one. The larger playground surface should be completely replaced, but the smaller one may be able to be resurfaced if it does not deteriorate too much more before being addressed.

Quotes are from April 2023. For planning purposes 10% has been added for escalation and contingency. The larger playground replacement is shown in FY26 and the smaller resurfacing in FY27, but there may be some efficiencies and savings by doing them both at the same time.

Description and Justification:

Nock/Molin-Additional Tennis Courts

Department:	Schools
Category:	Parks, Grounds & Open Space
Request Type (New/Prior Year):	New
Priority:	Enhancement
Project Cost:	\$495,755
Estimated Useful Life:	20 Years

Description and Justification:

This project aims to add three tennis courts adjacent to the existing courts at the Nock-Molin School. This would give the high school teams the facilities they need to practice and host matches. High School tennis matches consist of five individual matches, so with the team currently hosting regular season matches at Atkinson Common where there are only three courts, the full match can take hours. Additionally, MIAA rules require a minimum of four courts in one location to host playoff matches, so the two-time defending state champs girl's team has to host home matches at Pentucket. There are currently about 60 students participating on the girls and boys tennis teams. These courts would also be available to the public and PE classes. Cost below includes estimated construction cost and \$38,750 for design and engineering work. The Friends of Newburyport Tennis have donated \$21,195 toward the design work for this project.

NHS HVAC Electrification

Department:	Schools
Category:	Infrastructure
Request Type (New/Prior Year):	New
Priority:	Maintain Service
Project Cost:	\$3,845,500
Estimated Useful Life:	25 Years

Description and Justification:

The purpose of this project is to replace aging boilers, chillers and the water heater at the high school, and move the city forward toward emission reduction goals. In 2023 National Grid funded a scoping study to identify options for electrification of the hvac system at the high school. Of the two options identified, a central air to water heat pump system is currently the preferred option. The new heat pumps could be installed in the place currently occupied by the end-of-life chillers on the roof and utilize existing piping infrastructure. The existing boilers would remain as supplemental heat during the coldest times of the year. Estimated cost is \$3,622,700.

Utility incentives for this project are estimated to be in the range of \$2 million. In 2025 the MSBA will begin to accept Statements of Interest related to electrification projects. Newburyport's 2023 reimbursement rate from the MSBA is about 43%, which would apply to the remaining cost AFTER utility incentives are deducted from the total project cost. Additionally, replacement of the main water heater is estimated at \$222,800 with \$140,211 in incentives available from National Grid.

Description and Justification:

The proposed project aims to contract an architectural firm experienced in school building usage to study the current use of the science-related classrooms and labs at the high school and suggest improvements through minor renovations, upgrades of furniture, fixtures, and equipment, and changes in usage patterns/scheduling. The firm would be responsible for involving staff and administration in the process, developing plans to modernize outdated spaces, and providing cost estimates for the chosen option(s). IC/ICA: SCHOOL YEAR / CALENDAR

The school calendar for the ensuing year will be prepared by the Superintendent and submitted to the School Committee for approval annually. The number of days or instructional hours scheduled for the school year will be determined in accordance with the following standards set by the Massachusetts Board of Elementary and Secondary Education:

1. Elementary school will operate for a minimum of 180 days. Schools shall ensure that every elementary school student is scheduled to receive a minimum of 900 hours per school year of structured learning time, as defined in regulation. Time which a student spends at school breakfast and lunch, passing between classes, in homeroom, at recess, in non-directed study periods, receiving school services, and participating in optional school programs shall not count toward meeting the minimum structured learning time requirement for that student.
2. Secondary schools will operate for a minimum of 180 days. Schools shall ensure that every secondary school student is scheduled to receive a minimum of 990 hours per school year of structured learning time, as defined in regulation. Time which a student spends at school breakfast and lunch, passing between classes, in homeroom, at recess, in non-directed study periods, and participating in optional school programs shall not count toward meeting the minimum structured learning time requirement for that student.

For the information of staff, students, and parents, the calendar will set forth the days schools will be in session; holidays and vacation periods; in service days; and parent conferences.

Newburyport School Calendars will always follow these guidelines with regards to setting a starting date for school:

- The Friday before Labor Day will always be a no-student day and a non-work day for educators.
- Before the full beginning of the year, time will be set up to allow students in transition years (1, 4, 6, and 9) time in their new buildings to become acclimated before all students arrive.
- New-teacher orientation and otherwise stipended days are not considered “regular faculty days” and can therefore take place outside of this policy.
- In years when Labor Day falls between September 1- 4, school will start after Labor Day,
 - o Regular faculty days will also start after Labor Day unless specifically requested for approval by the Superintendent and applicable labor unions.
 - o All students grades 1-12 will have at least 1 complete school day during this first week of programming.
- In years when Labor Day falls between September 5-7, we will start school during the week before Labor Day.
- Regular faculty days will not start before the Monday before Labor Day.
- All students grades 1-12 will have at least one complete school day during this first week of programming.

EQUAL EDUCATIONAL OPPORTUNITIES

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the School Committee will make every effort to protect the dignity of the students as individuals. It also will offer careful consideration of their human rights, and sympathetic understanding of their personal feelings, particularly with reference to their race*, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy, or pregnancy-related condition, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law.

~~race, color, sex, gender identity, religion, national origin, sexual orientation, homelessness, physical and intellectual differences, pregnancy or pregnancy related conditions.~~

¶

To accomplish this, the Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law which prohibits discrimination in public school admissions and programs. The law reads as follows:¶

¶

~~No child shall be excluded from or discriminated against in admission to a public school of any town, or in obtaining the advantages, privileges and course of study of such public school on account of race, color, sex, gender identity, religion, national origin, sexual orientation, pregnancy or pregnancy related conditions or homelessness.~~

EDUCATIONAL EQUITY

The School Committee's goal is to strive to address the needs of every student.

Educational equity for the purpose of this policy is defined as providing all students the high quality instruction and individualized supports they need to be prepared for life after graduation.

To achieve educational equity the district will commit to:

1. Systematically, when appropriate, use districtwide and individual school level data, disaggregated by race/ethnicity, gender/gender identity, national origin, language, special education, socioeconomic status and mobility to inform district decision making.
2. Raise the achievement of all students.
3. Graduate all students ready to succeed in a diverse local, national and global community.

In order to reach the goal of educational equity for each and every student, the District shall:

1. Provide every student with access to high quality curriculum, support, and other educational resources.
2. Seek to promote educational equity as a priority in professional development and educator evaluation.
3. Endeavor to create schools with a welcoming and inclusive culture and environment.
4. Provide multiple pathways to success in order to meet the needs of the diverse student body and actively encourage, support and expect high academic achievement for each student.

The Superintendent shall include equity practices in the district's strategic plan and goal strategies to implement this policy. The Superintendent, upon request, will periodically report to the Committee the progress of the implementation of this policy.

~~SCHOOL~~ ENTRANCE AGE

In an attempt to permit children to enter school at the time most appropriate for them individually, the School Committee establishes the following policy on entrance age:

1. Children who will be five years of age prior to the first day of September in the year during which they wish to enroll will be eligible to enter kindergarten for that school year.
2. The admission of children whose birthdays fall after the first day of ~~September~~ school will be solely at the superintendent's discretion.
3. Initial admission of children to any other grades will involve a consideration of both chronological age and the readiness of the children to do the work of those grades.

ADMISSION OF TRANSFER STUDENTS

The school district will enroll and place students who have left Commonwealth charter schools by adhering to the same policies and procedures in place for any other student enrolling in the school district including, but not limited to, examination of the course of study and level of academic attainment of the student when determining the student's appropriate grade placement or eligibility for high school graduation.

To the same extent provided for other students enrolling in the school district, students who enroll in the school district from a Commonwealth charter school shall be subject to the graduation requirements of the school district, may have certain graduation requirements waived, and may make-up certain graduation requirements.

LEGAL REFS.: Chapter 12, Section 11 of the Acts of 2010

SCHOOL CHOICE

Non-resident students may attend the Newburyport Public Schools under the provisions of General Laws, Chapter 76, Section 12b, as amended and modified, and subject to regulations drawn up by the superintendent and approved by the school committee. If the School Committee will not be participating in the school choice program, then by law and no later than June 1, of each school year the Committee must hold a Public Hearing to review participation in the school choice program, and hold a vote to withdraw from the school choice program for the year beginning the following September.

A. Cost of Tuition

1. The cost of tuition for non-resident students will be borne by the Commonwealth of Massachusetts in accordance with the law.
2. Funds received from the Commonwealth in payment of tuition for non-resident students will be deposited with the city treasurer in a separate account for the use of the school committee without further appropriation.

B. Admissions

1. The school committee will determine the number of non-resident students to be accepted on the basis of information provided by the superintendent. The committee will make this determination after considering enrollment, staffing needs, and class size data.
2. Information concerning the number of non-residents to be admitted will be published as the committee deems appropriate.
3. The superintendent will determine the acceptance of Choice students conditional upon availability of seats. A wait list will be established and admissions from the wait list will be on a first come, first serve basis.
4. Non-resident students currently enrolled shall continue to be enrolled.
5. By law, siblings of non-resident students (existing choice) enrolled in the schools take precedence in admittance over other applicants.
6. If a student moves and no longer lives in Newburyport but wishes to remain a student in the Newburyport Public Schools, a School Choice application must be completed and submitted to the superintendent. The superintendent will determine the acceptance of Choice students conditional upon availability of seats.
7. If there are more applicants than seat availability at a particular grade level, a lottery will be held to determine who will be accepted and the others will remain on a waitlist until future seats become available. Any sibling of a student already enrolled in the receiving district shall receive priority for admission to said district.
8. Non-resident students admitted under this policy may maintain their enrollment until they graduate.

9. ~~The School Committee does not discriminate in the admission of any child on the basis of race, color, religious creed, national origin, sex, gender identity, age, sexual orientation, ancestry, athletic performance, physical handicap, pregnancy or pregnancy related conditions, special need or academic performance or proficiency in the English language.~~ The School Committee affirms its position that it shall not discriminate in the admission of any child on the basis of race*, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy, or pregnancy-related condition, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law, athletic performance, academic performance, or proficiency in the English language.

~~STUDENT ABSENCES AND EXCUSES~~

~~ATTENDANCE~~

~~The Newburyport Public Schools expects parents [Note: All references to 'parent' mean parent(s) or guardian(s)] and students to make every reasonable effort to have their children attend school every day. The continuity of day to day instruction is a critical dynamic to the overall success of each student.~~

~~If a pattern of absences develops, the administration, along with the appropriate personnel from the Newburyport Police Department will consider filing a Child Requiring Assistance complaint with the Essex County Court for truancy. Please see the Student Absence Notification Program below for further details.~~

~~For general, excused absences, it is the responsibility of the student to make up all missed assignments, tests or quizzes. The student will have as many days missed in order to make up the work. For example, if a student is absent for two (2) days, the student will have two (2) days to make up the required work.~~

~~If a student is out of school due to illness, the parent may request work assignments through the teacher. The parent will be responsible for retrieving this material at the close of the school day in the Office and will be responsible for overseeing their son's/daughter's completion of the assignment. If a student is to be absent for an extended period of time due to illness, (fourteen or more consecutive days), the family may be eligible to receive some tutorial services. If you believe your child will have an extended absence, please contact the principal's office.~~

~~Participation in after school or evening events will not be allowed for students absent on the day of the event.~~

~~Excused Absences~~

~~Students may be excused temporarily from school attendance for the following reasons:~~

- ~~• Illness or quarantine~~
- ~~• Bereavement of serious illness in family~~
- ~~• Weather so inclement as to endanger the health of the child~~
- ~~• For observance of major religious holidays (see Religious Observations below)~~
- ~~• For other exceptional reasons when approval of the school administrator~~

~~Absence Notification/Verification Procedure~~

~~When your child is absent, either for an "excused" reason as set forth above or another reason, please follow the reporting procedures posted on the school web site and the current student handbook.~~

~~Absence Reporting Procedure~~

~~Please provide the following information when reporting a student absence.~~

- ~~• Identify yourself/calling party~~
- ~~• Student's name, grade and home room teacher's name~~
- ~~• Date(s) of absence~~

~~Do NOT leave the following information on the Call-In Line.~~

- ~~• Confidential medical information – speak to the nurse directly~~
- ~~• Requests for homework~~
- ~~• Messages for classroom teachers~~

~~For your child's safety, it is imperative that you call to document absences. If we do not hear from you, we will assume your child was sent to school and did not arrive. To ensure all children arrive at school safely, all Newburyport elementary schools have a Safe Arrival Program in which we work to verify all unreported absences as quickly as possible.~~

~~Documenting Absence if Not Called In on Day of Absence~~

~~If the absence is not verified by phone on the day of the absence, students will be required to present an absence note.~~

~~Medical Absence and Student Illness~~

~~Absences of five (5) days or longer require a note from a physician's office prior to the school readmitting your child to class.~~

~~When should you call the nurse regarding a student illness?~~

- ~~• A new medical diagnosis or change in health or emotional status, i.e. the diagnosis of an allergy~~
- ~~• A newly prescribed medication~~
- ~~• Any change(s) in current medication~~
- ~~• A serious injury, illness, or hospitalization~~
- ~~• An injury that will require crutches and/or wheelchair or elevator use, e.g. fracture, sprain, stitches or cast~~
- ~~• A contagious disease (e.g. chicken pox, flu, strep throat, pertussis)~~
- ~~• Extended period of absence with atypical symptom~~
- ~~• Recent changes in family history that may affect your child, such as a birth, recent loss or sudden illness~~

~~Tardiness~~

~~It is important that students start their day off on the right foot and arriving late to school can negatively impact a student's day. As students grow and learn it is essential for their future success that they assume~~

~~more responsibilities for their actions, choices and behaviors. Arriving to school on time is one of these responsibilities. Students arriving after the start of school are considered tardy and need to sign in at the office with an adult. Tardiness is noted on report cards. Although, we realize that emergencies occur on occasion, we expect students to arrive at school on time. If a family is experiencing difficulty getting a student to school on time, please contact the school administrative office for assistance.~~ ¶

~~¶~~ ~~Excused Dismissal~~ ¶

~~¶~~
~~Please try to schedule appointments after school hours. In the event that you have to dismiss your child, send a note to your child's teacher including the day, time, and who will pick up your child. In cases where we are not familiar with the adult, identification will be required. No child will be released without an adult escort.~~ ¶

~~¶~~
~~If you dismiss your child from his/her classroom for any reason that does not pertain to a function designated for that child, he/she will be marked dismissed on the school attendance.~~ ¶

~~¶~~
~~Dismissal notes are mandatory. Calling the school or sending an email to dismiss your child may result in someone not getting the message in a timely manner. We require written authorization for dismissals.~~ ¶

~~¶~~ ~~Family Vacations~~ ¶

~~¶~~
~~Sometimes families plan vacations that occur during regularly scheduled school time. The Newburyport Public School department does not encourage or condone such action. Instead, the schools uphold Massachusetts General Law, Chapter 76, Sections 1-21 entitled "School Attendance". This section of the law requires parents to "cause" their children to regularly attend school. Individuals who induce student absenteeism are liable for fines up to \$200. With this in mind, we reaffirm the position that parents are responsible for their children to attend school every day that classes are in session.~~ ¶

~~¶~~
~~Absences due to family vacation are unexcused. A child who is absent from school due to a family vacation taken during the school year is of particular concern. It is important for children to receive continuous instruction; every day missed sets a child back and creates added pressure on the child and on the school. The school calendar is published in advance of the school year to help parents plan family trips so that they coincide with school vacations. Parents are urged to comply with the school calendar.~~ ¶

~~¶~~
~~The practice of the school department is not to provide advance and/or make up work when the student is absent from school due to vacation. Since assignments are based upon material previously taught, work must be made up after the child returns. Parental cooperation in this matter is appreciated.~~ ¶

~~¶~~
~~Students who are absent at the time when state or national standardized tests are administered will be allowed to make up missed tests to the extent that scheduled make up time is available and consistent with state law and regulations.~~ ¶

~~¶~~ ~~Religious Observations~~ ¶

~~¶~~
~~Students may be granted excused absences when the school's schedule conflicts with religious holidays. A student may be required to submit written notification. A student should not suffer adverse or prejudicial consequences from an excused absence, should be allowed a reasonable opportunity to make up school work missed during the absence, and will not be subject to penalty scholastically or to~~

~~attendance records due to absences incurred due to religious observances. A sincere attempt will be made to avoid assemblies, assessments, and special school events on religious holidays.~~

~~¶~~

~~Attendance Failure~~

~~¶~~

~~Absences greater than seven (7) days in a semester are considered excessive. If a student is repeatedly absent or tardy without an acceptable excuse, the Principal may take necessary action, including retention, withholding of credit or receiving an incomplete. All absences, including absences excused by parents, will count toward the semester limit.~~

~~¶~~

~~The exceptions for the purpose of this policy are documented, excused absences for:~~

~~¶~~

- ~~• Family bereavement or serious illness in the family~~
- ~~• School approved field trips~~
- ~~• Observance of major religious holidays~~
- ~~• Legal (with documentation from court or lawyer)~~
- ~~• Medical excuse, absences due to illness or doctor appointment (with date-specific medical documentation for each day of absence provided by physician in order for absence to be excused)~~

~~¶~~

~~Student Absence Notification Program~~

~~¶~~

~~If the school has not received notification of an absence from a parent within three (3) days of the absence, the school shall notify the parent of the child's absence.~~

~~¶~~

~~If a student has at least five (5) days in which he/she has missed two (2) or more periods unexcused in a school year, or if a student has missed five (5) or more school days unexcused in a school year, the school shall notify the student's. For those students who have five (5) or more unexcused absences in a school year, the school principal shall make reasonable effort to meet with the parent to develop jointly, and with input from other relevant school personnel and officials from relevant state and local agencies, an action plan to improve and ensure the student's attendance.~~

UPDATED MASC POLICY

STUDENT ABSENCES AND EXCUSES

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents/guardians of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A student may also be excused for other exceptional reasons with approval of the Principal or designee.

Accordingly, parents/guardians will provide a written explanation for the absence or tardiness of their child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

Student Absence Notification Program

Each Principal or designee will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

Each Principal or designee shall make a reasonable effort to meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

Dropout Prevention

A student who has not graduated from high school and has been absent from school for ten (10) consecutive days of unexcused absence shall not be considered permanently removed from school unless the Principal has sent notice to the student, and that student's parent/guardian. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if applicable. The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within the ten (10) day

timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days.

The Superintendent or designee may proceed with any interview without a parent/guardian present, provided the Superintendent has documented a good faith effort to include the parent/guardian.

The Superintendent or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

NOTE: DESE'S minimum requirements for policies and protocols include the following items which are most appropriate for inclusion in student handbooks so that Districts can most effectively meet student and family needs.

- When and how absences will be reported by parents or guardians to the school, by the administrative designee to classroom teachers, and by teachers to the administrative designee for classroom attendance.
- Parent/guardian responsibilities for reporting a child's absence including method of reporting (e.g., phone, email, text), expected time of notification, any required documentation verifying the reason for the absence, and deadline for submitting said documentation.
- Timeline for school notification to parents of an absence in the event the parent or guardian did not report the absence.
- When and who from the school will check-in and follow-up with students and families (e.g., after 1 unexcused absence; after 5 excused absences) and how this will take place.
- Any academic consequences for excessive absenteeism (e.g., loss of credit).
- Interventions and services the school may use to encourage consistent student attendance and reengagement.

STUDENT PUBLICATIONS

Within the school setting, students enjoy the constitutional right of freedom of expression, including the right to express their views in student press, either in print or digital form, provided such expression does not cause, or threaten to cause by reasonable forecast by school officials, any disruption or disorder in the school. Additionally, such constitutional right of freedom of expression does not include expression which is obscene, defamatory, or advocates violence or illegality where such advocacy is imminently likely to incite the commission of such acts to the detriment of school security, or which can reasonably be forecast to cause substantial disruption or material interference with school activities.

Student press will be encouraged to comply with the rules for responsible journalism. Students shall affix their names to all articles or editorials written by or contributed to by them. The Superintendent will establish guidelines that are in keeping with this policy and provide for review of student press prior to distribution, to address matters that are not protected forms of expression.

All student media shall contain the following: "Pursuant to state law, no expression made by students in the exercise of such rights shall be deemed to be an expression of school policy and no school officials shall be held responsible in any civil or criminal action for any expression made or published by the students."

GANG ACTIVITY/SECRET SOCIETIES

The goal of the School Committee is to keep District schools and students free from the threats or harmful influence of any gang. For purposes of this policy, gang is defined as any group, secret society, organization or association that advocates drug use, violence, ethnic intimidation, or disruptive or illegal behavior. The Principal or their designee shall maintain supervision of school premises to deter intimidation of students and confrontations between members of different gangs.

The Superintendent shall establish open lines of communication with local law enforcement agencies so as to share information and provide mutual support in this effort within appropriate legal guidelines.

The Superintendent shall provide as needed in-service training to help staff members identify gangs and gang symbols, recognize early manifestations of disruptive activities, and respond appropriately. Staff members shall be informed about conflict management techniques and alerted to intervention measures and community resources that may help students.

Symbols

The School Committee finds that gang symbols are inherently disruptive to the educational process, and therefore prohibits the presence of any insignia, apparel, jewelry, accessory, notebook or other school supply, or manner of grooming which by virtue of its color, arrangement, trademark, or any other attribute denotes membership in gangs. The School Committee further prohibits any demonstration of gang membership through the use of hand gestures, graffiti, or printed materials. This policy shall be applied by the Principal or their designee as the need for it arises at individual school sites. A student may be suspended or expelled for failure to comply with the provisions of this policy.

Prevention Education

The School Committee realizes that students may become involved in gangs without understanding the consequences of such membership. Early intervention is a key component of efforts to break the cycle of such memberships. Therefore, gang violence prevention information shall be made available in the elementary, middle, and high schools as appropriate.

SECRET SOCIETIES

Fraternities, sororities and/or secret societies shall not receive District or building recognition in any manner.

A student may be suspended or expelled for failure to comply with the provisions of this policy.

~~HAZING POLICY~~ PROHIBITION OF HAZING

In accordance with Massachusetts General Laws, the School Committee hereby deems that no student, employee or school organization under the control of the School Committee shall engage in the activity of hazing a student while on or off school property, or at a school sponsored event regardless of the location. No organization that uses the facilities or grounds under the control of the School Committee shall engage in the activity of hazing any person while on school property.

Any student who observes what appears to them to be the activity of hazing another student or person should report such information to the Principal including the time, date, location, names of identifiable participants and the types of behavior exhibited. Students and employees of the District are obligated by law to report incidents of hazing to the police department.

Any student who is present at a hazing has the obligation to report such an incident. Failure to do so may result in disciplinary action by the school against that student and could involve suspension from school for up to three days.

Any student who participates in the hazing of another student or other person may, upon the approval of the Superintendent of Schools, be suspended from school for up to ten (10) school days.

Any student determined by the Principal to be the organizer of a hazing activity may be recommended for expulsion from school but will receive no less disciplinary action than that of a participant.

In all cases relating to hazing, students will receive procedural due process.

The School Committee is committed to providing a safe, positive and productive educational environment where students can achieve the highest academic standards. No student shall be subjected to harassment, intimidation, bullying, or cyber-bullying.

“Bullying” is the repeated use by one or more students or school staff members of a written, verbal, or electronic expression, or a physical act or gesture, or any combination thereof, directed at a target that:

- causes physical or emotional harm to the target or damage to the target’s property;
- places the target in reasonable fear of harm to themselves, or of damage to their property;
- creates a hostile environment at school for the target;

Bullying and cyber-bullying may occur in and out of school, during and after school hours, at home and in locations outside of the home. When bullying and cyber-bullying are alleged, the full cooperation and assistance of parents/guardians and families are expected.

For the purpose of this policy, whenever the term bullying is used it is to denote either bullying, or cyber-bullying.

The Principal is responsible for the implementation and oversight of the bullying prevention and implementation plan within their school.

Reporting

Students, who believe that they are a target of bullying, observe an act of bullying, or who have reasonable grounds to believe that these behaviors are taking place, are obligated to report incidents to a member of the school staff. The target shall, however, not be subject to discipline for failing to report bullying.

Each school shall have a means for anonymous reporting by students of incidents of bullying. No formal disciplinary action shall be taken solely on the basis of an anonymous report.

Any student who knowingly makes a false accusation of bullying shall be subject to disciplinary action.

Parents or guardians, or members of the community, are encouraged to report an incident of bullying as soon as possible.

A member of a school staff shall immediately report any instance of bullying the staff member has witnessed or become aware of to the school principal or their designee.

Investigation Procedures

The Principal or their designee, upon receipt of a viable report, shall promptly contact the parents or guardians of a student who has been the alleged target or alleged perpetrator of bullying. The actions being taken to prevent further acts of bullying shall be discussed.

The school Principal or a designee shall promptly investigate the report of bullying, using a Bullying/Cyber-bullying Report Form which may include interviewing the alleged target, alleged perpetrator, staff members, students and/or witnesses.

Support staff shall assess an alleged target's needs for protection and create and implement a safety plan that shall restore a sense of safety for that student.

Confidentiality shall be used to protect a person who reports bullying, provides information during an investigation of bullying, or is witness to or has reliable information about an act of bullying.

If the school Principal or a designee determines that bullying has occurred they shall take appropriate disciplinary action and if it is believed that criminal charges may be pursued against the perpetrator, the principal shall consult with the school's resource officer and the Superintendent to determine if criminal charges are warranted. If it is determined that criminal charges are warranted, the local law enforcement agency shall be notified.

The investigation shall be completed within fourteen school days from the date of the report. The parents or guardians shall be contacted upon completion of the investigation and informed of the results, including whether the allegations were found to be factual, whether a violation of this policy was found, and whether disciplinary action has or shall be taken. At a minimum the Principal or their designee shall contact the parents or guardians as to the status of the investigation on a weekly basis.

Disciplinary actions for students who have committed an act of bullying or retaliation shall be in accordance with district disciplinary policies.

Each school shall document any incident of bullying that is reported per this policy and a file shall be maintained by the Principal or designee. A monthly report shall be provided to the Superintendent.

Confidentiality shall be maintained to the extent consistent with the school's obligations under law.

SEARCHES AND INTERROGATIONS

Searches by Staff

The right of inspection of students' school lockers is inherent in the authority granted school committees and administrators. This authority may be exercised as needed in the interest of safeguarding children, personal and school property.

Nevertheless, exercise of that authority by school officials places demands upon their judgment so as to protect each child's constitutional rights to personal privacy and protection from coercion and to act in the best interest of all students and the schools.

Searches by school officials of students' automobiles or the student will be conducted in a way that protects the students' rights consistent with the responsibility of the school system to provide an atmosphere conducive to the educational process.

Interrogations by Police

The schools have legal custody of students during the school day and during hours of approved extracurricular activities. It is the responsibility of the school administration to make an effort to protect each student's rights with respect to interrogations by law enforcement officials. Therefore:

1. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school Principal or ~~his/her designee~~ **another building administrator** will be present ~~when possible~~. An effort will be made to contact the student's parent/guardian or guardian so that the responsible individual may be notified of the situation.
2. If custody and/or arrest are involved, the Principal will request that all procedural safeguards, as prescribed by law, ~~be observed~~ **are followed** by the law enforcement officials.

STUDENT COMPLAINTS AND GRIEVANCES

The School Committee recognizes that there may be conditions in the school system that are in need of improvement and that students should have some means by which their concerns may be effectively expressed, considered, and dealt with fairly. Such means, if well-conceived, and understood in advance, can do much to maintain harmonious relationships among the schools and the students and community. Every attempt will be made to seek a satisfactory solution to any concerns in a friendly and informal manner.

Students--and their parents and/or guardians, who believe that a student has received unfair treatment may bring forward their grievance through the appropriate channels. Appeals of disciplinary cases will be required to follow the district's policy on student discipline. Any applicable provisions of the Massachusetts General Laws or federal law will be followed by school officials in conducting hearings.

1. The goal for each student will be a balanced program of appropriate academic studies and activities to be determined by the school, the parents/guardians, and the student. This should be a shared responsibility.
2. Guidance will be offered to encourage participation of all students in appropriate activities and to prevent over-emphasis on extracurricular activities at the cost of academic performance.

The School Committee requires that final approval be sought no less than 30 days prior to the scheduled trip dates.

At the high school level, interscholastic athletic competition will include a variety of sports. Students will be allowed to participate in individual sports on the basis of their abilities and desire. Additionally, intramural athletic activities will be offered as an outgrowth of class instruction in physical education.

The School Committee is aware that team participation in athletic contests by members of the student body requires that "away games" be scheduled. STUDENT CONDUCT ~~POLICY ENFORCEMENT~~

The Massachusetts General Laws require the School Committee to adopt written policies, rules and regulations not inconsistent with law, which may relate to study, discipline, conduct, safety and welfare of all students, or any classification thereof, enrolled in the public schools of the District.

The implementation of the general rules of conduct is the responsibility of the Principal and the professional staff of the building. In order to do this, each school staff in the District shall develop specific rules not inconsistent with the law nor in conflict with School Committee policy. These building rules shall be an extension of the District policies by being more specific as they relate to the individual schools.

The purpose of disciplinary action is to restore acceptable behavior. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances.

Students violating any of the policies on student conduct and control will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. Most of the situations which require disciplinary action can be resolved within the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

If a situation should arise in which there is no applicable written policy, the staff member shall be expected to exercise reasonable and professional judgment.

PHYSICAL RESTRAINT OF STUDENTS

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm.

The definitions of forms of restraint shall be as defined in 603CMR 46.02.

The use of mechanical restraint, medical restraint, and seclusion is prohibited.

The power of the School Committee or of any teacher or other employee or agent of the Committee to maintain discipline on school property shall not include the right to inflict corporal punishment upon any student.

Physical restraint, including prone restraint where permitted under 603 CMR 46.03, shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent/guardian of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00,
- A process for obtaining principal approval for a time out exceeding 30 minutes.

Each building Principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting.

The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint".

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each Principal, who shall sign a form acknowledging receipt thereof.

~~INOCULATIONS~~ IMMUNIZATION OF STUDENTS

Students entering school for the first time, whether at kindergarten or through transfer from another school system, will be required to present a physician's certificate attesting to immunization against communicable diseases as may be specified from time to time by the Department of Public Health. The only exception to these requirements will be made on receipt of a written statement from a doctor that immunization would not be in the best interests of the child, or by the student's parent or guardian stating that vaccination or immunization is contrary to the religious beliefs of the student or parent, or the student is deemed homeless under the guidelines of the McKinney Vento Act.

COMMUNICABLE DISEASES

The District is required to provide educational services to all school age children who reside within its boundaries. By law, however, admission to school may be denied to any child diagnosed as having a disease whereby attendance could be harmful to the welfare of other students and staff, subject to the District's responsibilities to handicapped children under the law.

The School Committee recognizes that communicable diseases which may afflict students range from common childhood diseases, acute and short-term in nature, to chronic, life-threatening diseases.

Management of common and uncommon communicable diseases shall be in accordance with Massachusetts Department of Health guidelines. A student who exhibits symptoms of a communicable disease may be temporarily excluded from school attendance. The District reserves the right to require a physician's statement authorizing the student's return to school.

The educational placement of a student who is medically diagnosed as having a life-threatening communicable disease shall be determined on an individual basis in accordance with this policy, Mandates from the Department of Health, and accompanying administrative procedures. Decisions about the proper educational placement shall be based on the student's behavior, neurological development, and physical condition; the expected type of interaction with others in school setting; and the susceptibility to other diseases and the likelihood of presenting risks to others will be taken into consideration. A regular review of the placement decision shall be conducted to assess changes in the student's physical condition, or based on new information or research that may warrant a change in a student's placement.

In the event a student with a life-threatening communicable disease qualifies for services as a ~~handicapped~~ disabled child under state and federal law, the procedures for determining the appropriate educational placement in the least restrictive environment shall be used in lieu of the procedures designated above.

Neither this policy nor the placement of a student in any particular program shall preclude the administration from taking any temporary actions including removal of a student from the classroom as deemed necessary to protect the health, safety, and welfare of the student, staff, and others.

In all proceedings related to this policy, the District shall respect the student's right to privacy. Only those persons with a direct need to know shall be informed of the specific nature of the student's condition. The determination of those who need to know shall be made by the Superintendent.

~~GUIDANCE PROGRAM~~

~~Guidance is defined as helping individuals understand themselves in the light of their abilities, aptitudes, interests, attitudes, strengths and limitations. This process should assist students in the development of their potential, their decisions relating to personal, educational, and vocational matters, and also in becoming capable of mature self guidance.~~

~~The school system's guidance program will be based on this definition and developed from these broad fundamental principles:~~

- ~~1. Individuals are different from one another in their capabilities, aptitudes, interests, needs, goals, desires and values.~~
- ~~2. Conditions may be improved. Equality of educational opportunity will benefit the individual and society.~~
- ~~3. Guidance is a continuous and developmental process. Every experience of the individual influences his/her performance in some way.~~
- ~~4. Guidance does not propose to program an individual's course of action but rather tries to assist him/her in arriving at his/her own satisfactory solutions.~~

~~Guidance services will include: educational guidance, testing programs, occupational, career, and higher education assistance and information; study aids; consultation services; and personal developmental guidance as needed. These services will be available to all students.~~

~~While some of the problems of the individual may relate to behavior and consequently entail guidance on behavior, student discipline will not be a regular function of guidance personnel.~~

~~Solicitation of funds for charitable purposes from students of the school system will be made only as approved by the superintendent.~~

~~Any organization desiring to distribute flyers or other materials to students in connection with fund drives may do so only with the approval of the Superintendent.~~

STUDENT RECORDS

In order to provide students with appropriate instruction and educational services, it is necessary for the school system to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent will provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations. The temporary record of each student ~~enrolled on or after June 2002~~ will be destroyed no later than seven years after the student transfers, graduates or withdraws from the School District. Written notice to the eligible student and his/her parent of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation, or withdrawal. The student's transcript may only be destroyed 60 years following his/her graduation, transfer, or withdrawal from the school system.

The Committee wishes to make clear that all individual student records of the school system are confidential. This extends to giving out individual addresses and telephone numbers.
